SUMMARY

iOS and visionOS engineer in the MSU Apple Developer Academy's Year 2 Renaissance cohort, building a Vision Pro healthcare app for a surgeon at Henry Ford Health. 5 shipped apps with 2,100+ combined downloads, plus full-stack web platforms with Stripe payments for paying clients. Seeking full-time engineering roles, including Claris FileMaker, in Detroit or remote.

SKILLS

WEB & BACKEND

Node.js · Express · React · HTML / CSS / JS · Three.js · Python · FastAPI · Supabase · PostgreSQL · Deno Edge Functions · Stripe · Vite · Capacitor · Vercel

IOS & MOBILE

Swift · SwiftUI · Catalyst · StoreKit · RevenueCat · visionOS · RealityKit · Reality Composer Pro · WidgetKit · SwiftData · CoreML · Apple Intelligence · Kotlin · Android

AI & ML

Anthropic MCP SDK · Claude API · WebMCP · XGBoost

CLARIS FILEMAKER

FileMaker Pro · Scripting & Calculations · ExecuteSQL · Data API · Semantic Search · LLM Integration

TOOLS

Xcode · Git · TestFlight · App Store Connect · VSCode · Docker · Claude Code

APPS

Tally - Time Tracker

Swift · SwiftUI · StoreKit · Stripe · React · Capacitor · Supabase · Jul 2026 · Solo build

- Built and shipped native iPhone, iPad, Apple Watch, Mac and Vision Pro apps, a React web app and an Android beta, all on one Supabase backend.
- Connected 15 integrations, including Jira, Linear, Asana, GitHub and Google Calendar; tracked time posts back to each tool, such as Jira worklogs. Shipped a Chrome extension and a public API with webhooks.
- Use it daily on a real freelance contract, where my collaborator and I track our hours for the client.
- Reached 63K+ App Store impressions and ~300 downloads.

Squishy Butter

Three.js · GLSL · Capacitor · Supabase · Stripe · RevenueCat · Vite · Sep 2026 · Solo build

- Shipped a 3D squishy fidget with a custom GLSL soft-body shader from one codebase to iPhone, iPad, Mac, Apple Watch, Android and web.
- Built a Supabase backend with 12 Edge Functions for Stripe and in-app purchases, push notifications and an admin revenue dashboard.
- Reached 1,800+ downloads across the App Store and Google Play (100+ in the first 3 days) and 69,000+ squishes on the web.

Stamped! A City Passport

Swift · SwiftUI · visionOS · MapKit 3D · Apple Intelligence · iCloud · Feb 2026 · Solo build

- Built a SwiftUI app covering 1,800+ landmarks across 140 cities and 101 campuses, with a photoreal 3D city map and a day-by-day trip planner.
- Added passport stamps with mastery tiers, iCloud sync and Apple Intelligence itineraries.

CoastCast

Swift · SwiftUI · CoreML · WeatherKit · WidgetKit · Python · FastAPI · May 2026 · Co-developer

- Co-developed real-time conditions for 54 Michigan beaches, with an on-device XGBoost CoreML model trained on 40 years of attendance data.
- Shipped Dynamic Island and WidgetKit support, backed by 120+ parameterized tests.

TakeFlight

Swift · SpriteKit · GameKit · Apr 2026 · Co-developer

- Co-built a SpriteKit survival game in 6 weeks at the Apple Developer Academy, with four connected mini-games and full keyboard support.
- Selected by Apple to demo at a downtown Detroit event.

EXPERIENCE

visionOS Developer (Renaissance Program) · MSU Apple Developer Academy

Detroit, MI · Sep 2026 – May 2027 · Vision Pro / visionOS

- Selected for the advanced Year 2 Renaissance cohort, 25 of 240 first-year students.
- Building a Vision Pro healthcare app for a surgeon at Henry Ford Health on a team of 5, using visionOS and RealityKit (details confidential).

Software Developer Intern · Sort-Tek Inspection Systems

Troy, MI · Aug 2026 – Present

- Develop software for a confidential project.
- Helped write the curriculum for, and advise, a 5-student MSU CSE senior capstone team building on the project.

Former Co-Founder & Developer · CH Studios LLC

Detroit, MI · Apr 2026 – Oct 2026

- Co-founded a Detroit software studio with Jaiden Henley; registered the LLC and handled scoping, pricing and master service agreements with clients.
- **Client: Tripsetta.** Shipped feature updates across iOS, Android and web for an early-stage travel startup on a part-time contract.
- Picked up Kotlin and Android from scratch mid-contract and kept the platform moving without interruption.

iOS Developer (Year 1) · MSU Apple Developer Academy

Detroit, MI · Sep 2025 – May 2026

- Learned Swift, SwiftUI, design principles, project management and team-based development; shipped multiple App Store submissions.
- Took part in Apple-led events and workshops throughout Detroit.

Independent Study · Software Engineering Career Transition

Mar 2023 – Sep 2025

- Self-directed coursework in Python (University of Michigan), front-end development (Meta), Swift and JavaScript; accepted into the MSU Apple Developer Academy in Sep 2025.

Lab Assistant · CSU Wheat Breeding Program

Fort Collins, CO · Jun 2022 – Mar 2023

- Field data collection, controlled environment trials and lab sample analysis supporting wheat genetics research.

CLIENT WORK

White Bear Harmonics

Node.js · Express · Supabase · Stripe · Resend · Vercel · Jul 2026 · Solo build · 2 weeks start to handoff

- Took a solo wellness practitioner from no web presence to a full booking platform in 2 weeks: Stripe payments, automated confirmation and cancellation emails, a JWT-protected admin dashboard and multi-tenant architecture.
- Replaced a $100–200/month Mindbody subscription.

Crystal Lake Resort

Node.js · Express · Supabase · Stripe · Resend · Vercel · 2026 · Solo build

- Built a direct booking platform for a boutique Michigan resort, with Stripe reservations, self-serve cancellation and an admin dashboard that saves the owner the 15% OTA commission on every booking.
- Processed $1,935 across 7 bookings in the first week; 60+ reservations across 15+ rooms as of Oct 2026.

Sort-Tek Inspection Systems

HTML · CSS · JavaScript · Vercel · Google Analytics · Jul 2026 · Solo build · Delivered in five days

- Replaced a 30-year inspection company's "under construction" placeholder with a 6-page site in plain HTML, CSS and JavaScript in five days.
- Launched with 100/100 in all four Lighthouse categories on mobile and desktop; first inbound lead within weeks of launch.

EDUCATION

Bachelor of Science (B.S.), Agricultural Business and Management

Colorado State University · Fort Collins, CO · May 2022

CERTIFICATES

FORMAL PROGRAMS

- App Developer for Claris FileMaker Pro: Associate, Specialist & Expert - Claris (Sep – Oct 2026)
- AI Fundamentals I & II: Claris FileMaker - Claris (Oct 2026)
- App Store Development - Apple Developer Academy | MSU
- UI/UX Workshop - Dexian (June – July 2026)
- Generative AI Explained - NVIDIA (May 2026)
- Apple Ads Certification - App Store
